TRAY MANUFACTURER, TROLLEY MANUFACTURER, HOTPLATE MANUFACTURER

trays

Kaymet UK is the pre-eminent UK Trolley Manufacturer, Tray Manufacturer, and Electric Table Hotplate Manufacturer. All items are made in their factory in London. Kaymet has been producing in the UK high quality anodised trays, tea trolleys, serving trolleys, electrically heated trolleys, hot cabinet trolleys, electric table hotplates and catering equipment for over 60 years and its products are distributed world-wide through hospitality, china and glass departments, specialty stores, design-led gift, kitchen and cook shops and catering equipment suppliers.

electric table hotplates

electric hotplate trolleys and hot cabinets

Many of the original designs are still in production and additional models and finishes are constantly introduced to keep pace with the latest trends.

restaurant service trolleys

The Kaymet Rubber Grip Tray is the most recent addition to the range. A series of round Rubber Grips ensure that the tray surface is non-slip, and form an attractive pattern that enhances the overall appearance of the tray. The trays are also available on contemporary tea trolleys which are illustrated on the Contemporary and Rubber Grip Trolleys page of the Trolleys section.
