## TRAYS

For over sixty years The Kaymet Company has been producing high quality anodised trays and bedtrays.

New lines and finishes are constantly introduced to keep pace with the latest trends, but Kaymet's legendary quality is never sacrificed.

Each piece is manufactured, hand polished, anodised and assembled to a standard that will ensure many years of trouble free use.

Kaymet trays are sold worldwide to exclusive retailers and department stores.

Most models are available in the traditional gold colour as well as the all silver and the matt black and silver finishes. The 2000 cut-out handle trays are available in silver and black and silver.

The Rubber Grip non-slip range is the most recent addition to the Kaymet tray range
